

GRADUATE STUDENTS 2012-2015

We are recruiting graduate students with interest in aging, mobility, trauma, Emergency Department and rehabilitation practices.

WHO WE ARE:

The Canadian Emergency Department Team Initiative (CETI-ICRU) is a CIHR interdisciplinary research team in mobility and aging. Members are clinicians and researchers in Emergency Medicine, Rehabilitation and Nursing Sciences, Aging, and Health Services.

OUR GOALS:

Our team aims at improving Emergency Department clinical practices in order to prevent functional decline in older patients with minor trauma.

REQUIREMENTS:

Students must have a background in epidemiology, medicine, rehabilitation, nursing, statistics, psychology or any other relevant field.

FUNDING:

Financial support available

TRAINING SITE:

Université Laval
